Dear Sir

Following on from our telephone conversation regarding visitor numbers at the Blowholes over the last few years I have attached graphs showing the records.

Our vehicle counter records only commenced in July 1994. Anecdotal records suggest a steady increase in visitor numbers over the last 5 to 10 years.

The two graphs represent actual vehicles and a calculated number for visitors based on a calibration figure. Also note that the figures for 97/98 are only up to January 1988.

I hope this meets your needs and should you require further advice on this matter please contact myself, on 03 55231180.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Ian Walker".
