

11 July 1996

Senator The Hon Richard Alston  
Minister for Communications & the Arts  
Parliament House  
CANBERRA 2600

Dear Senator Alston

**REPORT ON PROGRESS OF TELSTRA'S IMPLEMENTATION OF  
RECOMMENDATIONS OF AUSTEL'S *THE COT CASES* REPORT**

I am pleased to provide AUSTEL's sixth status report on Telstra's progress in implementing the recommendations of AUSTEL's April 1994 *The COT Cases* Report.

This report consists of two parts: a summary of significant developments to date; and a more detailed commentary on the implementation of outstanding recommendations.

Telstra has now implemented most of the recommendations of *The COT Cases* Report. However, some significant recommendations remain to be implemented, and Telstra's progress in relation to these is of concern to AUSTEL. Of particular concern is Telstra's failure to introduce its enhanced fault management support system. Telstra continues to utilise the LEOPARD fault management system, which was identified by its consultants Coopers & Lybrand in November 1993 as being urgently in need of replacement.

On a more positive note, Telstra has now fully implemented recommendation 1 of the Bell Canada International *Network Consulting Study*, so that greater information is now available on reasons for call failure, thus allowing improved network fault identification. Telstra has also decided to adopt a universal complaint management system, known as CICERO. AUSTEL understands that Telstra is already deriving considerable benefit from its analysis of the complaint data produced by CICERO, and that this will lead to customer benefits.

Also included in AUSTEL's report is a report by the Telecommunications Industry Ombudsman (TIO) on the *Status and Progress of the Fast Track, Special and Standard Arbitration Procedures*. The TIO is critical of Telstra's behaviour and attitude in relation to these arbitrations.

Yours sincerely
